February 23, 2011

Dear Rich,

We would like to take a few moments to thank you for your recent appearance at our Blues Societies "Blues in the Schools" program. Though this was your first time presenting a Blues in the School education program, you handled everything that we asked of you. Whether it was a group of first to third graders in a small class setting, or a whole high school assembly, you handled it all as a true professional. Both we and the staffs at each school were very impressed with all of the presentations that you gave. After your presentation to group of high school students was finished, we were thrilled to see all of the interest from the students. Especially with even having a large group staying around to chat with you, and ask as many questions as they could in the time allotted. We did ask you for a lot of different dynamics to work with, but you were well prepared for each presentation.

We are confident that as long as we give you information in advance of what each presentation consists of, age groups, size, and time and settings for each class, that you will deliver a quality presentation. And we'd like to let you know that we are already planning on using your talents again next year and also expanding the program to probably use your talents in even more schools. Our mission of "Keeping the Blues Alive" is strengthened, when we are able to introduce the Blues to younger generations, and this thrills us when we have someone like you to help us accomplish this.

Once again, thank you so much for the great job that you did for us. If you ever need a reference to help you in getting more Blues education opportunities, please feel free to anyone give me a call at my number, 217-440-3393. I'll be glad to recommend you to do this for another organization.

Sincerely,

Linda Gertz,
President, M.M.M.W.B.S.
